

Proposed Witchcraft Convictions (Pardons) (Scotland) Bill

Introduction

A proposal for a Bill to pardon all those convicted under the Witchcraft Act 1563.

The consultation runs from 23 June 2022 to 15 September 2022

All those wishing to respond to the consultation are strongly encouraged to enter their responses electronically through this survey. This makes collation of responses much simpler and quicker. However, the option also exists of sending in a separate response (in hard copy or by other electronic means such as e-mail), and details of how to do so are included in the member's consultation document.

Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Whilst you have the option to skip particular questions, you must continue to the end of the survey and press "Submit" to have your response fully recorded.

Please ensure you have read the consultation document before responding to any of the questions that follow. In particular, you should read the information contained in the document about how your response will be handled. The consultation document is available here:

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Fully supportive

Please explain the reasons for your response.

Even within the historical context of the times, such cruelty and barbarism was unimaginable.

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

Legislation is a positive route to bring justice to all those innocents who suffered.

Financial Implications

Q3. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

Unsure

Equalities

Q4. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Positive

Please explain the reasons for your response including the impact on people with particular protected characteristics

Not really sure how to answer this other than my strong feeling of it's better late than never to right a wrong.

I feel huge empathy with all the women tortured and executed for supposedly practicing witchcraft.....

I don't know how to take special account of the impact on "people with particular characteristics "

Sadly no account was taken in the past and people with protected characteristics would have suffered and died too.

Sustainability

Q5. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

I think it can set an example that it's never too late. We are not responsible

General

Q6. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Think I cut myself off with that last answer!! Me and technology!!
I think it's a great example for younger people to learn that although we're not directly responsible for crimes of the past, that doesn't mean we should do nothing.
Many people at that time were culpable. Not just the individuals who carried out the atrocities.
