Questions marked with an asterisk (*) require an answer.

All responses must include a name and contact details. Names will only be published if you give us permission, and contact details are never published – but we may use them to contact you if there is a query about your response. If you do not include a name and/or contact details, we may have to disregard your response.

Please note that you must complete the survey in order for your response to be accepted. If you don't wish to complete the survey in a single session, you can choose "Save and Continue later" at any point. Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Fully opposed

Q1. Which of the following best expresses your view of the proposed Bill? (Please note that this question is compulsory.)

Please explain the reasons for your response.

It is beyond comprehension that time and effort is being devoted to this Bill when there are far more pressing matters affecting the daily lives of Scots that require the focus of MSPs

Q2. Do you think legislation is required, or are there other ways in which the proposed Bill's aims could be achieved more effectively? Please explain the reasons for your response.

A total waste of time and money. The aims of this Bill are a contrived nonsense. This obsession with correcting past injustices contributes very little to the present or future lives of Scots, and only detracts from areas that should be priorities for politicians and civil servants.

Financial Implications

Q3. Any new law can have a financial impact which would affect individuals, businesses, the public sector, or others. What financial impact do you think this proposal could have if it became law?

some increase in costs

Please explain the reasons for your answer.

It may have minimal impact financially if it became law, but the very fact that Parliament and Civil Service time and cost is being devoted to this is abhorrent. The assertion that there is strong public support for such legislation confirms how out of touch MSPs are with reality. This smacks of some sycophantic virtue-signalling to impress the FM, with some 'interesting' and selective quoted analogies to Catalonia (always a sympathetic reference for pro-Independence supporters), misogyny ('SNP support women and aren't really eroding their rights through GRA'), and a "Just Scotland" (because we like to virtue-signal as being 'different and better than rUK, even on pointless 500yr old agendas.

Equalities

Q4. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Please explain the reasons for your response including the impact on people with particular protected characteristics

Seriously? What an absolutely tenuous and irrelevant 'box-ticking' question.

Sustainability

Q5. Any new law can impact on work to protect and enhance the environment, achieve a sustainable economy, and create a strong, healthy, and just society for future generations.

Do you think the proposal could impact in any of these areas? (If you do not have a view then skip to next question)

Please explain the reasons for your answer, including what you think the impact of the proposal could be, and if there are any ways you think the proposal could avoid negative impacts?

As per my previous response

General

Q6. Do you have any other additional comments or suggestions on the proposed Bill (which have not already been covered in any of your responses to earlier questions)?

Drop this virtue-signalling nonsense, and start dealing with issues that affect the daily lives of citizens - NHS waiting lists; Policing cuts; Drugs deaths; Council budget cuts; erosion of public services; cost of living crisis; pandemic recovery; high taxation; lack of business support; appalling rail, road, and island transport; deteriorating infrastructure, etc. It is time MSPs got in touch with reality.
